DK FIBRE GLASS WORKS Ltd.

UK's Leading Crazy Golf Manufacturers
www.mini-crazy-golf.co.uk

OUR STORY SO FAR

DK Fibreglass works are a family run ISO 9001:2015 certified manufacturing company specialising in the production of GRP/ FRP components for almost 4 decades.

As with many established companies DK Fibreglass's story starts with humble beginning's. Established in 1985 by our founder Ken Regini starting out in a single garage producing small one of parts whilst working on his first ever crazy golf course design that are now known around the world, it was in fact the successful sale of this first course to Warner Leisure Hayling Island that enabled Ken to expand and take on what would be known as DK Fibreglass's very first official premises.

We proudly to this day have on display within our main workshop the companies first ever sign that was hand gelled by Ken himself all those years ago!

Due to his determination, work ethic and clear passion for the company he dreamed of building Ken soon established DK Fibreglass as a lead supplier within the leisure and hospitality sectors, a reputation that we have kept and consistently built upon over the past 3 decades.

Ken soon turned his attentions to the commercial sector and as he did within the leisure and hospitality sector soon made DK Fibreglass a well-known and reputable supplier of GRP/FRP components to the Automotive, marine, utilities, offshore and renewable energies sectors to name but a few. While he did expand into these industries crazy golf has always been a main focus and the heart of the company.

The company has gone from strength to strength in recent years with Kens grandsons stepping up into management rolls within the family company and acquiring ISO 9001:2015 certification and expanding into larger premises after winning numerous new contracts. DK continues to offer the perfect solution for those looking for an experienced and passionate GRP/FRP component specialist.

CRAZY GOLF FAQ'S

Can your golf courses be customised?

Yes! All our courses can be customised by any colour you choose, which obstacle are used and what colour you want the carpet to be from our range. additional charges may apply.

Can you offer themed courses e.g. Dinosaurs, Animals or Pirates etc?

Yes! We can offer loads of different themes to meet your desired needs and these can all be fitted to our golf courses or placed around them, in most cases there will be additional charges for themed sets.

Can you make bespoke obstacles for the golf courses?

Yes! We can make bespoke obstacles to suit your needs, additional charges may apply.

Can I have more or less than 9 holes?

Yes! Please contact us with the number of holes you require and we will be able to offer you a custom quote.

Can you mix and match different courses to make your course?

Yes! If you would like for example: 4 of our 5-star holes and 5 of our emperor holes that is completely achievable and please contact us for a custom quote.

Can any obstacle fit on any golf course?

Unfortunately not all our obstacles are universal to all courses, however the majority are so if your concerned about a certain large obstacle fitting, please contact us.

Can the courses be laid out in any order I want?

Yes! If you wish to have a certain hole with a certain obstacle as the number 1 hole and so on, then please let us know beforehand so we can apply the number vinyl accordingly or send them with the course for you to apply yourselves.

How will I know which obstacle fits on which hole?

We label each hole with a name tag so you know which obstacle fits on which hole of your course and obstacles can only ever fit 1 way to make it easy.

Can your golf obstacles be stood and jumped on?

No! Under no circumstances should the golf obstacles be stood or jumped on. They are not structurally designed for this purpose and for the purpose of health and safety.

Can you supply Clubs and Balls with your courses?

Yes! We can supply clubs and balls however this will be at an additional cost.

Can you provide dimensions and specification for your golf courses?

Yes! All specification can be found on our website in a viewable and downloadable brochure or please get in contact with us for it to be sent direct.

What surfaces can your golf courses be placed on?

Our golf courses can be placed on any surface which is reasonably flat so the ball can be played easily and not be forced to one side. E.g. Bark, Gravel, Sand, Grass, Astro Turf, Soil or Concrete etc.

What is the lead time on your golf courses?

Usually, our manufacturing lead time is around 4 weeks as all courses are custom made so we rarely have them in stock ready to ship, however this lead time is subject to change depending on golf course orders already placed.

Can you spell our company name or a custom name with your course?

Yes! we are able to offer any name/word you want as we have the entire alphabet available so if you want something custom then please give us a call.

How are your golf courses assembled?

All our golf courses are pre-assembled prior to delivery, we send each course with the required number of Nuts, Bolts and Washers in order to connect the sections of a hole together.

These are simply placed through the pre drilled aligned holes under the platform and then tightened to ensure the course stays together and there are no gaps between each section of the hole.

We will also provide fitting instructions with each course. A 13mm and 19mm Spanner will be required to tighten the bolts provided.

We thank you for reading through our F.A.Q's and we hope this has provided you the answers to the questions you may have had. However if you have a question which was not answered then

please feel free to email us at info@dkfibreglassmanufacturing.co.uk

We look forward to hearing from you.
